WHEREAS, in Flathead County, 60.8% of businesses employ workers enrolled in Montana Medicaid and statewide, the legislation has improved labor force participation by 6 to 9%; and

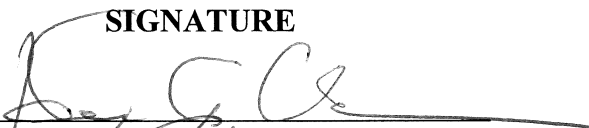

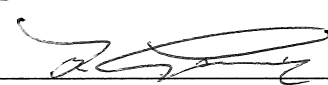

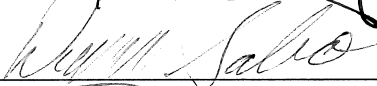

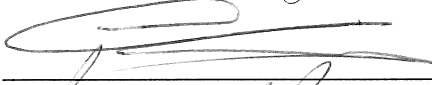

WHEREAS, the HELP Act has significantly stimulated Montana's economy according to the University of Montana's Bureau of Business and Economic Research, which reported that as the result of the HELP Act, 5,000 new jobs, \$270 million in personal income and \$500 million in additional economic output has been added to Montana's economy. Additionally, the HELP Act is expected to generate \$1.2 billion in personal income and \$2.6 billion in economic output or new sales; and
